Col. Joseph L. ROMANO III, (LEFT in the photo) commander of the 31st Security Police Squadron at the Aviano Air Base at the time, now working at the Pentagon.

Charged at the same time were two Italian intelligence (SISMI) officers, the first Italians charged so far in the case. They are: Marco Mancini, the director of operations of the spy service SISMI, and General Gustavo Pignero, who was in charge of SISMI operations in northern Italy and was Mancini's superior. Mancini was jailed and Pignero placed under house arrest because he claimed to be ill.

Besides the persons charged today, 22 other CIA operatives have already been indicted and are subject to arrest in Europe and other jurisdictions of Interpol. Many of these people work in State Department positions at U.S. embassies.
